BRAIN RESEARCH

Author Index

Abizaid, A., Walker, C.-D. and Woodside, B. Changes in neuropeptide Y immunoreactivity in the arcuate nucleus during and after food restriction in lactating rats (761) 306
Abramovich, D.R., see Drew, J.E. (761) 87
Akiyama, H., see Yang, Y. (761) 11
Akiyama, T., see Yamazaki, T. (761) 329
Ally, A. Cardiovascular effects of central administration of clonidine in conscious cats (761) 283
Angelides, K.J., see Elmer, L.W. (761) 2
Angelides, K.J., see Ritchie, J.M. (761) 3
Anisman, H., see Merali, Z. (761) 225
Arguelles, J.H., see Martenson, M.E. (761) 71
Autelitano, D.J., see Crack, P.J. (761) 113
Ayala-Guerrero, F., see Huitrón-Reséndiz, S. (761) 19

Baranyi, M., see Bencsics, A. (761) 236
Barrett, P., see Drew, J.E. (761) 87
Bartlett, S.E., Reynolds, A.J., Weible, M., Heydon, K. and Hendry, I.A. In sympathetic but not sensory neurones, phosphoinositide-3 kinase is important for NGF-dependent survival and the retrograde transport of ^{125}I-βNGF (761) 257
Baumann, T.K., see Martenson, M.E. (761) 71
Belej, T., see Nobrega, J.N. (761) 161
Bencsics, A., Sershen, H., Baranyi, M., Hashim, A., Lajtha, A. and Vizi, E.S. Dopamine, as well as norepinephrine, is a link between noradrenergic nerve terminals and splenocytes (761) 236
Benvenuti, F., Stanhope, S.J., Thomas, S.L., Panzer, V.P. and Hallett, M. Flexibility of anticipatory postural adjustments revealed by self-paced and reaction-time arm movements (761) 59
Bitterman, N., Skapa, E. and Gutterman, A. Starvation and dehydration attenuate CNS oxygen toxicity in rats (761) 146
Black, J.A., Felts, P., Smith, K.J., Kocsis, J.D. and Waxman, S.G. Distribution of sodium channels in chronically demyelinated spinal cord axons: immunoultrastructural localization and electrophysiological observations. Brain Research 544 (1991) 59-70 (761) 1
Black, J.A., see Elmer, L.W. (761) 2
Black, J.A., see Ritchie, J.M. (761) 3
Boda, B., see Mihaly, A. (761) 135
Booth, R.G., see Choksi, N.Y. (761) 151
Bordi, F., Reggiani, A. and Conquet, F. Regulation of synaptic plasticity by mGluR$_1$ studied in vivo in mGluR$_1$ mutant mice (761) 121
Brandis, A., see Rohlfs, A. (761) 352
Brewer, G.J., see Yang, Y. (761) 11

Chakravarty, D.N. and Faingold, C.L. Aberrant neuronal responsiveness in the genetically epilepsy-prone rat: acoustic responses and influences of the central nucleus upon the external nucleus of inferior colliculus (761) 263
Charli, J.-L., see Sánchez, E. (761) 77
Choksi, N.Y., Hussain, A. and Booth, R.G. 2-Phenylaminoadenosine stimulates dopamine synthesis in rat forebrain in vitro and in vivo via adenosine A_2 receptors (761) 151
Cloft, H.J. and Mitchell, J.A. Serotonergic innervation of the supraependymal neuronal complex of the golden hamster (761) 210
Cohen, S.M. and Nadler, J.V. Proline-induced potentiation of glutamate transmission (761) 271
Conquet, F., see Bordi, F. (761) 121
Corkidi, G., see Sánchez, E. (761) 77
Crack, P.J., Autelitano, D.J. and Smith, A.I. The involvement of nitric oxide in the secretion of β-endorphin from the pituitary intermediate lobe of the rat (761) 113
Crumb Jr., W.J., see Wible, B. (761) 42
Cynshi, O., see Sugawa, M. (761) 165
